

Test Planning & Test Cases

Testing-a munnaadiye plan pannradhu

Test Plan na yenna?

Yenna test pannuvom, epdi, yaaru, yeppo nu sollra document. **Test case** = oru specific check-oda steps and expected result.

Test Plan Contents

Part	Yenna ezhudhanum
Objective	Testing-oda goal.
Scope	Yenna test pannuvom, yenna pannamaatom.
Test types	Unit, integration, system, UAT.
Environment	Devices, browsers, OS, database.
Roles	Yaaru yenna test pannuvaanga.
Schedule	Start / end dates.
Entry & exit criteria	Yeppo aarambikkalam, yeppo mudikkalam.
Risks	Test-ku thadaigal.

Test Case Design Techniques

Technique	Meaning	Example
Equivalence partitioning	Input-a groups-a pirichu, ovvoru group-lum oru value test.	Age 18-60 valid; <18 and >60 invalid.
Boundary value	Edge values test.	17, 18, 60, 61.
Error guessing	Anubavathula thappu varum idatha test.	Empty field, special characters.
Decision table	Conditions combination test.	Login: email valid/invalid x password valid/invalid.

Test Case Template

ID	Scenario	Steps	Expected	Result
TC-01				
TC-02				
TC-03				

Entry & Exit Criteria

- **Entry:** Build ready, environment set, test cases approved.
- **Exit:** Critical bugs fixed, planned tests execute aayiduchu, pass rate target reach aachu.
